In New Mexico – EPA is only providing water for livestock. We assumed that responsibility from San Juan County on Monday, Aug 10 using our emergency response contractor. We have issued a \$500,000 work assignment to the contractor and completed 4 distributions on Tuesday, Aug 11.

David,

Could you expand on the provision of water to the public and for other purposes? The Administrator would like to have a good grasp of the services we are providing to the residents and tribes (Navajo) in New Mexico. Even some facts as to when we started providing water, etc.

Thanks.
